CABINET SELECTION GUIDE

Using Our Experience to Enhance Yours

It started with a passion for woodworking. Now, almost a century later, the Yorktowne® craftsmanship can be found in classically beautiful cabinetry for America's kitchens, baths, closets, home offices and entertainment centers. We want to use our heritage of service to enhance each stage of your building or remodeling experience and to help you create a uniquely personalized space within your home.

Of all the stages, none is quite as exciting as the initial design phase. It's where you begin to image the possibilities of something that's uniquely yours. A space is personalized by the components you choose to fit your needs. On the following pages, you'll discover solutions and accessories for any room and style—everything from spice drawers to wine racks to decorative corbels and glass door inserts.

Simply page through the basic categories and find the components that appeal to you. Whether it's practical storage solutions or unique finishing touches, this guide will help you identify new ideas to meet functional needs and styles. Then share all your ideas with your designer and they'll help you achieve your design style with a plan that's made just for you!

### Universal Access Cabinetry

Yorktowne Cabinetry is proud to offer Universal Access cabinetry for the physically challenged. Select wood door styles and cabinet sizes are available. Please ask your designer for details and availability.
The size of your room isn’t nearly as important as its efficiency. Yorktowne has developed dozens of clever solutions to make sure you have a place for everything. Tuck your bread box and cutting board in a base cabinet. Install tilt-out trays by the sink for sponges and such. Organize your baking sheets in that sliver of space beside the stove. If it belongs in your room, we’ll design a place for it. Just mark the solutions you like and share them with your designer.
Creating your new room is about more than convenience and practicality.

It’s about beauty and personal expression. Yorktowne has a full selection of finishing touches that make your room unlike any other.

First, there are the finishes themselves. Rich, pure colors that allow the natural character of the wood to show through. Hand-rubbed glazes, opaque designer finishes and hand-crafted character finishes allow you to create combinations that will set the perfect mood for your home.

You can also choose from a stunning variety of decorative accents. Beautiful moldings can be used individually or combined for dramatic effects. Corbels, rosette blocks and fluted fillers add originality. Many of our cabinets can even be specially modified to fit the unique requirements of your room. From simple and spare to elegantly embellished, Yorktowne can create a room that reflects your individual style.

Cabinetry isn’t just for the kitchen anymore.

Consider the style and character you’ll add to your master closet, bath, library or home office with cabinetry from Yorktowne.

Put together a room with distinctive vision, vivid colors, quality materials and bold designer styling. Let your imagination flow with the limitless possibilities offered in our cabinetry, accessories and moldings.

*Available in vanity cabinetry only.
MODIFICATIONS

We can modify cabinets to meet special needs, add functionality, and help you create a kitchen made just for you. Perhaps you want to increase the depth of a cabinet for more storage or invert the front frame on a sink base cabinet to gain practical drawer space. You can select from a wide list of commonly requested modifications. Ask your designer for details.

- **Arch Bottom Rail**
  The cabinet front frame extends down to the floor and is crafted into a decorative arch valance.

- **Flush Toe Kick**
  The cabinet front frame extends to the floor with a flush toe kick.

- **Change Depth**
  Reduce or increase the depth of a wall, base, tall or vanity cabinet.

CUSTOM QUOTE PROGRAM

If there is still a desire to go beyond the scope of our wide range of modifications, take a look at our customizing capabilities. Yorktowne will work with your designer to create custom cabinetry exclusively for you – making your space as efficient as possible.

- **Apron Range Tops**
- **Warming Drawers**

Apron range tops and warming drawers of any size can be accommodated through our custom modification capabilities.
Please Note:

- Because all hardwoods have their own "personality" or special characteristics, variations in color, finish, grain pattern, and texture are to be expected. Yorktowne Cabinetry cannot be responsible for the variations within and between cabinets. These variations are naturally occurring and are considered acceptable, even desirable, because they result from the character and beauty of natural wood and/or hand-crafted finishing techniques.

- Due to printing limitations, actual color may vary. For best color representation, view an actual product sample when making your selection.

- Specifications subject to change without notice or obligation. Changes may occur due to material availability and/or improvements in product design.

- Some of the photographs in this brochure do not reflect 2005 product specification changes due to their modest visual perception.

- Optional decorative hardware shown.

- Some cabinets shown may have been modified to meet special application or design needs.

*Available in select styles.

All cabinets bear the Kitchen Cabinet Manufacturer’s Association certification label, which confirms compliance to the American National Standards Institute’s performance guidelines for kitchen cabinetry.
